Foundation

Pencil and paper

That was always (...and still is!) within arm's reach.

Drawing and creating since the age of six, I learned very early the value of limitless thinking when being creative. My maternal grandmother would often create watercolor and acrylic paintings and place them throughout her home on display for visitors to see and often encouraged feedback.

This was a front-row seat to witness the value of a constructive critique and social interaction one often times needs to perfect their gifted talent.

Those valuable observations and lessons still influence me to this day when interacting with other arts-enthusiasts - which help birth many of my artistic concepts. I believe a vivid imagination coupled with optimism breaks barriers and welcomes others to share their story.

Structure

Illustration

Hand-drawn conceptualizations using a variety of techniques and mediums or computer-generated imagery creation to produce an impactful and lasting aesthetic visualization towards a specific objective or focus of study.

Graphic Design

Computer-based platform that induces bold, precise and innovative design that communicates ideas, creates visual strategy standards and structurizes evolving brand identity.

Presentation Layout Design

A variety of "hands-on" techniques and specialty methods-of-assembly utilizing a wide array of materials, accessories and textures to achieve the perfect finish for a polished presentation that stands a measure above the rest.

Vision

It is a core belief of mine that creativity is water for the spirit.

By connecting with visionaries, leaders, artists and creative forums I continue to be inspired to learn different ways to be creative, impactful for good causes and encourage others to pursue discovering their hidden talents.
